OBJECTIVE

MCA graduate who has built projects in Java, Spring Boot and AWS (EC2, RDS, Lambda, API Gateway, SNS), with additional experience in PHP, MySQL and frontend development. Looking for an entry-level Software Developer role where I can build on these skills and keep learning.

EDUCATION

Master of Computer Applications (MCA)
University College of Engineering, BIT Campus, Tiruchirappalli | Graduated: 2026 | CGPA: 8.0/10

Bachelor of Science in Computer Science (B.Sc, CS)
Valluvar College of Science and Management, Karur | Graduated: 2020 | 54%

EXPERIENCE

Java Frontend Developer Intern December 2025 – May 2026
SSRTIC (The Art of Living), Papanasam, Tanjore

- Developed frontend web interfaces using HTML5, CSS, and JavaScript as part of live projects.
- Learned and applied core Java concepts in a professional development environment.
- Collaborated using Git and GitHub for version control and source code management.
- Participated in code reviews and team discussions to improve software quality.

PROJECTS

E-COMMERCE WEBSITE
HTML5, CSS, JavaScript, Spring Boot (Java 17), MySQL, AWS (EC2, RDS, Lambda, API Gateway, SNS, SES, IAM)

- Built an e-commerce site with a Spring Boot REST backend (3 resources: users, orders and order items) and a plain HTML/CSS/JavaScript frontend (product catalog, cart, checkout).
- Deployed the application on AWS using 8 services (EC2, RDS, Lambda, API Gateway, SNS, SES, IAM, CloudFront), with the backend on EC2 behind an Elastic IP and data in a private MySQL database on RDS, secured with security groups.
- Implemented an event-driven order notification flow using 4 AWS services (API Gateway HTTP API, Lambda in Node.js, SNS and SES), so the owner gets an email and the customer gets a confirmation for every new order.
- Configured IAM roles, CORS and security group rules, and debugged networking issues such as SSH tunnelling and port and IP access.

PORTFOLIO WEBSITE
d2yo523xrkz6xl.cloudfront.net

- Developed and deployed a personal portfolio site on AWS, using 2 AWS services: S3 for static hosting and CloudFront as the CDN.
- Enabled HTTPS and caching on the CloudFront distribution so the site loads faster.

SKILLS

- **Languages:** Java (17), Python, C++
- **Frontend:** HTML5, CSS3, JavaScript, React.js
- **Backend:** Spring Boot, Node.js, Express.js, PHP
- **Databases:** SQL (MySQL), MongoDB
- **Tools & Technologies:** Git, GitHub, REST API development, Socket.IO, JWT
- **Cloud:** AWS EC2, RDS, Lambda, API Gateway, SNS, SES, IAM, S3, CloudFront
- **Operating Systems:** Linux, Windows

CERTIFICATIONS

- NAT-Q4 – Japanese Language Examination
- Employability Skills Development Training Programme 2025 – TITAN LeAP & Naandi Foundation
- Junior English Typewriting – Distinction
- Diploma in Advanced Computer Programming

LANGUAGES KNOWN

Tamil, English, Japanese (NAT-Q4, currently preparing for JLPT N3)
